

Expect the unexpected

How we protect you...

At Wilson Financial we know that your family and your assets are important.

Our financial planning arm is here to protect your wealth and income from the consequences of unexpected accidents or illness. As a valued client of Wilson Financial we are offering this financial planning advice for insurance to you *without charge*.

More than three out of four Australians will be diagnosed with a serious illness in their working life - ABS Statistics

How we are different...

At Wilson Financial we only deal with the highest rated insurers in the business, both in terms of the quality of their claims processes, and the wide range of conditions and situations that you will be covered for. We provide the insurer with a very high level of detail to tailor the insurance to your history, your lifestyle and your budget. Through our complete understanding of your life and occupation, we provide you with the certainty that you have the strongest insurance available. This means that when it comes to claim time the insurance you are paying for delivers.

How does it work?

We make the process easy for you. We will research the right insurance from our panel of fifteen insurers. We deal with tracking down doctors reports, negotiating with insurers for you to get you the best result, and we handle the claims process for you when you get sick or injured.

We pride ourselves on providing high quality insurance structured to your budget. As financial planners we can tailor the insurance to reduce the effect on your cash flow. Our aim is to provide you with excellence in service so that you have absolute certainty and security.

A national and multi award winning business.
